Dr Chen Au Peh - MBBS FRACP PhD

Consultant Renal Physician & Clinical Associate, Professor of Medicine

Chen Au is a renal physician based at the Royal Adelaide Hospital. He graduated in Medicine from the University of Adelaide in 1987, and he is a Fellow of the Royal Australasian College of Physicians. His interest in today's topic originated from his visits to Myanmar where he saw many snakebite patients with severe kidney failure. He is project leader of the DFAT-funded Myanmar Snakebite Project that aims to improve the health outcomes of snakebite patients in Myanmar.

Dr Afzal Mahmood - MBBS Senior Lecturer at the School of Population Health, University of Adelaide
Afzal is an expert in health services development and research and community development, particularly in developing countries. His areas of specialisation are primary health care, health management information system, integrated and comprehensive care, health promotion, safe motherhood services and community development. Over the last 25 years Afzal has worked with a large number of government health departments, national and international NGOs and community organisations across countries including Indonesia, East Timor, Pakistan, Kenya, China, Bangladesh and Australia.

Associate Professor Julian White AM

Clinical Toxinologist, Women's & Children's Hospital & University of Adelaide

Julian White, a graduate of the University of Adelaide Medical School, has been involved in treating cases of envenoming for nearly 40 years, and since 1990 has been Head of Toxinology at the Women's & Children's Hospital, Adelaide. Julian was the 2015 recipient of the AMA (SA) award for "Outstanding contribution to medicine" and in the 2016 Australia Day honours was made a Member of the Order of Australia (AM). He is the author of around 200 publications in toxinology, including both basic venom research and clinical toxinology.

A question and answer session will be conducted after the talk.
