

23 September 2015

Dear Valued Customer

Subject: **Expiration Dating Extension for QConnect ToxoGM RUO,  
Lot 426004**

The purpose of this memo is to extend the expiration dating of QConnect ToxoGM RUO Lot 426004 for Australian and NZ laboratories using assays for the detection of IgG and/or IgM antibodies to *Toxoplasma gondii*.

The expiry dating of QConnect ToxoGM RUO, Lot 426004 will be extended until the 31 August 2016 for all users in Australia and New Zealand.

QConnect ToxoGM RUO, Lot 426004 test results were extracted from EDCNet for the period April 2015 to September 2015. There was no noticeable decrease in reactivity over time in analysis of all test results or analysis of results from a single laboratory. The estimated decrease over a 12-month period was estimated to be well within 2SD.

Please contact NRL with any concerns or queries.
